1. This action is in response to the amendment filed on 2/3/05.
2. Claims 1-10 have been allowed.

***Drawings***

3. The drawings were received on 11/2/01. These drawings are informal.

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings are informal. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

**EXAMINER'S AMENDMENT**

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Brett N. Dorny, applicant's attorney on 3/22/05.

The application has been amended as follows:

***In the Claims:***

- (1) ***Delete claim 11***
- (2) ***In claim 1 (Currently amended)***

at line 6, after "a stored set of service objects," insert wherein the service objects are independent of the object models and

(3) ***In claim 8 (Currently amended)***

at line 5, after, "a stored set of service objects," insert wherein the service objects are independent of the object models and wherein

at line 5, after "each of", delete [which] and insert the service objects

(4) ***In claim 10 (Currently amended)***

at line 2, delete [models] and insert objects

**REASON FOR ALLOWANCE**

5. The following is an examiner's statement of reason for allowance:

The cited prior art taken alone or in combination fail to teach, in combination with the other claimed limitations, the service object are independent of the object models and wherein each of the service objects includes functionality to parse at least one object model to determine elements and basic types in the at least one object model and functionality to perform a function with respect to elements of each of the basic object types; and defining a flow process representing an order for operation of the selected subset of service objects and data of the application, as recited in the independent claims 1 and 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
